

## High temperature grease BLN300

### Product Data

#### Product Information

BLN300 Motor assembly grease is made of high-quality base oil thickened with lithium soap and refined with special additives. This product is non-toxic, low-odor, no irritation.

#### Main performance and advantages

1. Good water resistance and plastic compatibility.
2. Low friction coefficient and excellent lubrication performance.
3. Effectively reduce motor vibration and excellent noise reduction performance.
4. Good fluidity, can be filled with grease injector.

#### Recommended Applications

1. Lubrication and noise reduction of various motor bearings.
2. Lubrication and noise reduction of plastic gears.
3. Operating temperature range:  $-20^{\circ}\text{C} \sim 120^{\circ}\text{C}$

## CHARACTERISTICS

Color	Visual inspection	Brown
NLGI	ASTM D217	00
Penetration at 25°C, (0,1mm)	ASTM D217	400-430
Drop point (°C)	ASTM D2265	300
Copper corrosion test (100°C, 24hr)	ASTM D4048	Passed
